on National Security and International Operations, called to say that Senator Jackson wanted to know whether there were any major developments that could explain the press statements attributed to Senator Stuart Symington based on the Director's testimony Monday before the Senate Armed Services. Committee. I told Miss Fosdick that so far as the Chinese matter was concerned there was some new information but it merely confirmed rather than altered existing estimates of China's progress in strategic weapons and I saw nothing urgent about bringing the Senator up-to-date. I added we would have somewhat more specific information in the next few days. She 25) agreed we should let the matter rest until then.
